

## Information & Price List 2010/2011

Your photographic requirements & agenda will be discussed prior to your wedding day. You set the agenda for the day and I'll fit in. I shoot a mixture of reportage & formal images in both colour & black & white.

Approximately, two weeks after your wedding your preview images will be available. You will receive your images in a preview book for you to keep & to select your images for your wedding album. I will then design your album & once approved this will be sent to my lab for printing.

My standard photographic coverage commences with images of the bride and entourage getting ready & concludes at the start of your reception meal.

I offer the following options:

### Option A:

- Coverage from your morning preparation until the start of your reception meal
- A preview book containing around 300 images

Early booking is advisable, as I will only undertake one wedding per day to assure attention to your wedding day.
